DETAILED ACTION

Response to Amendment

1. The amendment filed on January, 8, 2008 has been considered and made of record.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4 and 6-7 are rejected under 35 U.S.C. 102(b) as being anticipate by US Patent 5,781,990 to Seidler et al.

Regarding claim 1, Seidler et al disclose a process for mounting a plurality of parts (23-25) to a cable comprising: marking (by print jet 17) the cable (2) with information for mounting each of the parts on the cable (see Fig. 3), the cable being a single unbroken member (see Fig. 1), the information including mounted positions of each of the parts on the cable (see Col. 6, lines 18-23), the mounted positions of each of the parts being intermediate between opposite longitudinal ends of the cable in a state where the cable is used (see Col. 9, lines 1-7); and thereafter mounting each of the parts on the cable at a corresponding mounted position marked on the cable (see Figs. 4).

Regarding claim 2, Seidler et al disclose marking the cable with information for mounting each of the parts including a name and a mounted attitude of each of the parts (see Col. 6, lines 18-23).

Regarding 3, Seidler et al disclose marking is carried out at a step of cutting the cable into a predetermined length (see Fig. 3).

Regarding claims 6 and 7, Seidler et al disclose the cable is a sensor harness for a device, an antilock brake (see col. 9, line 53-56), mounted on a vehicle (see Col. 8, lines 13-14)

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 4 and 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Seidler et al in view of US Patent 6,267,385 to Okamoto et al.

Seidler et al is silent regarding how the plurality of parts being mounted onto the cable. Okamoto et al teach the step of mounting the plurality of parts to the cable by sliding mounting parts (10) onto the cable 14 and fixing the mounting part (10) to the cable by the adhesive (12) for easily fixing the mounting parts to the cable (see Col. 3, lines 9- 12). Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the invention of Seidler et al by utilized the mounting method as taught by Okamoto above for easily fixing the mounting parts to the cable.

Response to Arguments

6. Applicant's arguments with respect to claims 1-7 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
